DETAILED ACTION

1. This election/restriction is in response to the application filed 19 March 2001.

Claims 1-51 are pending. Claims 1, 8, 15, and 19 are independent claims.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, 19-20, 22-26, 28, 33-34, 36, 48-51, and 55-58 are drawn to an image display system, classified in class 348, subclass 177.
- II. Claims 8-14, 21, 35, and 37, drawn to an registration terminal, classified in class 348, subclass 263.
- III. Claims 15-18, 27, 29-32, 38-47, and 52-54, drawn to an image reading terminal, classified in class 382, subclass 113.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as verification of a digital watermark. Invention II has separate utility such as storing images in a digital photo album. Invention III has separate utility such as reading images in from an outside source, such as a scanner or website. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).
